AILEEN GUILLEN · THE TAX TEAM

"It's just miscellaneous."

The four most expensive words in your books.

Miscellaneous is where money goes into witness protection.

Nobody knows what's in it.

Nobody questions it.
It grows every month.

When we clean up a set of books, it's the first place we look.

It's never empty.

It's never small.

If you can't name it, you can't manage it.
